

ELECTRICAL

SERVICES

IS YOUR COMPANY SEEKING INNOVATIVE SOLUTIONS FOR INDUSTRIAL, COMMERCIAL, AND RESIDENTIAL CONSTRUCTION AND MAINTENANCE?

WE ARE COMMITTED TO THE SUCCESS OF YOUR PROJECTS, REGARDLESS OF THEIR SCOPE.

BUSINESS CASE

CHALLENGE

Perform the electrical upgrade of the roadstop located on the James Bay highway in an isolated area, hundreds of kilometres away from the nearest community, for maintenance or repair.

SOLUTION

The involvement of Blais Industries resulted in the installation of three generators that can be quickly disconnected and sent to service points should problems arise. The inclusion of a generator synchronization cabinet also offers the option of integrating solar panels at a later date.

RESULTS

This innovative solution enabled the customer to cut fuel consumption and optimize the use of one or more generators.

Health and safety, respect budgets and timelines are the objectives we must follow for all our customers.

Our experienced team strives to achieve these objectives with complete transparency.

OUR SERVICES

- Programming, calibration, troubleshooting and modifications
- Commissioning, maintenance, and retrofitting
- Consultations, tests, reports, and recommendations
- Wave quality studies and diagnostics
- 600 V to 35 kV switchgear
- Dry or oil transformers
- Power cables
- Protective and measuring relays
- Electrical substations and distributions
- Electric motors and DC and AC controls
- Battery operated electrical equipment up to 1000 V DC

We can provide you with a customized, comprehensive, and complete solution for all your electrical projects, underground or overhead. You can rely on our expertise from design to installation in your facilities.

Through the mobilization of experienced teams for the on-site installation and connection or disconnection of power equipment, we create the link you need to meet your objectives.

Managing an electrical project is now simpler than ever for you.

WE CAN MEET YOUR ELECTRICAL NEEDS, WHETHER FOR COMMISSIONING, MAINTENANCE, CALIBRATION, TROUBLESHOOTING OR DIAGNOSIS.

“When the goal is clear, and everyone agrees that we can work together for the same purpose. The project is then a guaranteed success.”

LUCIEN MERCIER / GENERAL MANAGER
